RE: Fencing to be placed on U.S. Scrap site,
122nd Street and Cottage Grove

Dear Ms. Tighe:

Pursuant to our phone conversation on Wednesday, August 28, 1985, this is to confirm that fencing on the U.S. Scrap site will go up commencing Thursday morning, August 29, 1985. The contractor, for the fencing only, is Regional Fence Sales Inc. Their address is P.O. Box 369, Tinley Park Il. 60477, Attention: Stan Shaffer. The estimate for the work is \$17,000.00 and the terms are net within 30 days. I have arranged for billing to be sent to Dan Smith as Business Manager of Stryker International to be paid on behalf of Steve Martell.

The specifications for the fence, the location of the fence and the time period for placement have been previously agreed upon between Region Fencing and Mid-America, as contractors for U.S. EPA. I have stated to Mr. Shaffer of Regional Fence Sales that any change in these arrangements or resolution of any problems which might arise in connection with placement of the fence must be resolved through consultation with U.S. EPA personnel and that Mr. Martell's sole involvement with placement of the fence will be making payment for the work.

Very truly yours,

Mary K. Drake
Assistant Regional Counsel
